ENROLLMENT AT COLLEGE WAS 424 YESTERDAY

Many More are Expected to Enroll This Week—Several Additions Made to the Faculty.

The enrollment of the summer term of the State Teachers College was 424 up to last night.

One hundred forty-eight distinct classes have been organized and calls are being made which will possibly occasion the formation of others. Of the classes now organized 102 are of college rank 8 senior, 21 junior, 35 sophomore and 37 freshman.

The work in vitalized rural life is beginning with very bright prospects, about 100 have already enrolled. This work is rapidly growing as its importance becomes clear to both teachers and patrons of the rural schools. Calls are rapidly coming for people with adequate training of this kind.

Some of the other courses which are of especial interests and which indicate the nature of the work being done are: Diplomatic American History, League of Nations, Political Parties, Latin America, S. A., Health Control, Journalism, Contemporary Drama, Electrical Wiring, Applied or Household Chemistry, and Modern Educational Problems.

Several additions are being made to the faculty this week.

Miss Minnie B. James, a commercial teacher in the Benton High School, St. Joseph, has begun her duties as secretary to President Richardson for the summer session.

Mr. Ellsworth, Supt. of Platte City will assist in the mathematics department during the summer.

Mr. Burrows, Prof. of English, Park College, has accepted a position in the English department for the summer.

Miss Ethel Moore, Texas Woman's College, Fort Worth, Texas, is also assisting in the English department.

Mr. Swinehart will do no teaching this summer. He has been granted a leave of absence that he may take a rest.

Mr. and Mrs. James Middleton had as their week end guest, G. A. Starkey of Des Moines, Ia.

ABOUT NEW HEALTH RULES AND ORDERS

PROSECUTING ATTORNEY McCAFFREY ISSUES STATEMENT.

EXPLAINS REGULATIONS

Hearty Cooperation of People and Physicians Necessary in Order to Protect the Public.

A statement of the new health regulations and the rules adopted by the State Board of Health, which have the form and effect of law, was issued by Prosecuting Attorney Charles F. McCaffrey today. The statement is as follows:

In order to place before the public generally the provisions of the new Health Regulations and the rules adopted by the State Board of Health which have the form and effect of law, we deem it advisable to make this public statement in explanation thereof.

The following diseases are declared to be notifiable: Anthrax, Cerebro-spinal Meningitis, Chickenpox, Asiatic Cholera, Diptheria (membraneous croup), Epidemic or septic sore throat, Glanders, Influenza, Leprosy, Measles, Mumps, Ophthalmia noonatorum (conjunctivities of the newborn), Plague, Poliomclitis, Acute anterior (infantile paralysis), Rabies, Scarlet Fever, Smallpox, Tetanus, Trachoma, Tuberculosis (pulmonary and other forms), Typhoid Fever, Typhus Fever, Whooping Cough.

When a physician is called upon to visit any person whom he has reason to believe is infected with any of the diseases above noted, such physician shall immediately give notice thereof by telephone when practicable, followed by written notice, to the local Board of Health (City or town authorities), if the person affected lives in a town or city, or to the County Commissioner of Health, if the person resides in the country. Said report shall contain the full name, age, occupation and address of the person affected, and the name of the disease and date of onset.

It is the duty, also, of any householder who knows or has reasons to believe, that any person within his household has any of the above diseases to give the notice within 24 hours after the onset of any such disease; provided no physician is in attendance.

The local Health Officers shall, also, report to the County Commissioner of Health all diseases which have been reported to them.

Certain diseases are, also, subject to quarantine and there are three degrees of quarantine; full, modified and observation.

Full quarantine is the isolation of the sick person; prohibition of ingress and egress to the building in which the sick person is confined.

Modified quarantine is the complete separation of the sick person and those waiting upon them from all other persons in same building or premises; and prohibition of entrance into or exit from building.

Observation is the inspection from time to time by health authorities of the person sick and supplying information as to proper measures and cure of the sick and the prevention of the spread of the disease.

When quarantine is established, any violation thereof is punishable by a fine and imprisonment in the county jail.

When quarantine in any degree is established, we earnestly ask full compliance therewith in order to protect and safeguard the public.

We also invited the hearty cooperation of our people and physicians so that the health of our citizens may be protected.

Our County Commissioner of Health is an estimable gentleman, kind and courteous, and will have a proper regard for the convenience of the sick, but he must, o necessity, be firm.

It, also, may be well to add that failure on the part of any physician or other person to make report as required subjects the one so failing, to a prosecution.

BURR BACK FROM THE SOUTH DAKOTA SCHOOL MEETING

Educators in That State Conducting State-wide Campaign for Vitalized Agriculture in Schools.

W. H. Burr in charge of the vitalized agriculture work in this county returned Saturday from a week's visit at Brookings, S. D., where he attended a meeting of the county superintendents of South Dakota and spoke of the work being done in this county. The course in vitalized agriculture at Brookings was under the direction of P. G. Holden of Chicago. There were 100 county superintendents in attendance, some of the superintendents having to travel thirty or forty miles to get their train. The state superintendent of schools of that state and the supervisor of rural schools attended the meeting and took the work with the others. South Dakota educators are very much interested in vitalized agriculture.

Mr. Burr and Miss Maude Whitehead are to be teachers at the summer school of the South Dakota State University at Brookings. The summer term will open June 28 and will continue six weeks. These teachers will have charge of the vitalized agriculture section.

HOW MORSE-BABLER SPENT THE MONEY

STATE CHAIRMAN COLE RECEIVED MONEY FROM HARDING.

JOHN ALBUS GOT $2,200

Both of the Republican Leaders Testified Yesterday Before the Senate Committee.

Washington, June 2.—Senate investigation of pre-convention presidential campaign expenditures turned back yesterday to contests in the individual states, with witnesses telling of expenditures on behalf of Governor Lowden, Republican, of Illinois, in Missouri.

It was further revealed yesterday that W. L. Cole, state chairman of the state committee of Missouri, who violated a party principle in advancing the cause of any particular candidate when he took $1200 from the funds of Senator Harding, sought to play the "safety first" game by getting under the Lowden plum tree, too. "Liv" Morse in his testimony, said Cole had received $500 of the Lowden fund.

Several of the delegates to the national convention benefitted through the timely arrival of the Lowden money. Among these was John Albus of St. Joseph, who got $2,000. A contest was brought against the Albus crowd in the state convention, but the credentials committee seated their delegates. Albus's seat in the national convention also is being contested. Other national delegates to benefit from the Lowden fund were Cole, Dr. Hart, Goldstein and Moore.

The following is how "Liv" Morse spent the Lowden money, according to his testimony:

J. L. Babler, national committeeman, $17,000; W. L. Cole, state chairman, $500; John Albus, st. Joseph, a delegate, $2,000; T. W. Hukreide, Warrenton, $1,250; J. W. Kavanaugh, $1,250; Ben F. Hesterman of Princeton, $1,000; The Censor, St. Louis, for "write up," $500; Ed Mitchell, Excelsior Springs Standard, $125; E. L. Morse, Jr., "traveling expense," $700; "A Kansas City newspaper for write up" $250; "A Kansas City newspaper man," $100.

(Note: These amounts do not include those previously testified to as having gone to Moore and Goldstein, nor smaller sums given to a number of persons.)

J. L. Babler gave from memory the names of those to whom he distributed the $17,000 received from Morse.

To a Mr. Russell of Caldwell County, $100; Mark Feltis, Caldwell County, $100; B. F. Shiveley, Caldwell County, $100; B. L. Focht, $325; Fred Wilson, $100; H. B. Gilgillen, $100; and L. Kelley, $200, both of Moberly; John Albus, St. Joseph, $200; O. G. Boisseau, Holden, $200 or $300; Chas. Hays, Harrisonville, several checks for $100; Charles Hendricks of Stockton, $300; W. H. Allen of Clinton, several checks $600 or $700, and maybe $1,000, all told, Babler said; J. W. Oalmer, Sedalia, $100; Roscoe Patterson, Springfield, $1,000; a Mr. James of Higginsville, $100; Dr. Duncan of Iberia, $400 or $500; M. A. Rhodes, $200; A. L. Duffy, $1,000; Charles Prather, $300; Joe Manlove, $300; I. Edmonds, $200; A. M. Gorman, $300.

HOUSE EXPECTS TO TAKE UP ARMENIAN PROPOSAL TODAY.

Washington, June 2.—The United States mandate over Armenia requested by President Wilson will be denied by the House today should the resolution reach the House in time for action. The President's plea for an American mandate over Armenia was rejected in the Senate yesterday by a vote of more than two to one. The vote was 52 to 23. Thirteen democrats cast their votes with the united republican membership.

FRIDAY IS LAST DAY FOR FILINGS FOR PRIMARY

Judge Dwight Davis Filed His Declaration Today—Dr. Jesse Miller Candidate for Representative.

According to Prosecuting Attorney Charles F. McCaffrey Friday is the last day for filing candidacies for the primary election to be held Tuesday, August 3. The secretary of state has also announced that filings will be accepted for state candidates on that day.

Judge Dwight Davis, who has been a member of the county court from the south district filed his declaration today as the candidate for the Democratic nomination for that office.

Dr. Jesse Miller of Maryville filed late yesterday afternoon as the candidate for the Republican nomination for representative. Superintendent C. F. Ross of Barnard filed for this place last week. It is understood efforts will be made to get Ross out of the race in favor of Miller. Dr. Miller is a member of the State Dental Board and also a member of the school board of the Maryville district.

PLUMB PLAN LEAGUE HAVE ENDORSED NO CANDIDATE.

Washington, June 2.—"The Plumb plan league is not constructed to encourage any presidential campaign," former Congressman Keating of Colorado, manager of the league, testified today before the Senate Committee investigating the pre-convention presidentail campaign expenses. The league is conducting and confining itself strictly to an educational campaign, Keating said. The government ownership of the country's railroads was the chief purpose of the league, Keating explained. "We have indorsed no candidate for president," he stated.

Attorney-General Palmer was charged today with "astounding misuse" of the department of justice and other "machinery" of the administration in boosting his presidential boom in the Pennsylvania primary fight by Judge Bonniwell, leader of the anti-Palmer forces in Pennsylvania.

WILCOX ELECTION ON NEXT TUESDAY

TO VOTE ON DISSOLUTION WILCOX CONSOLIDATE DISTRICT.

TWO-THIRDS MAJORITY

For the Dissolution to Carry—Have Twice Defeated School Levy for That District.

An election to dissolve the Wilcox consolidated school district has been called for Tuesday, June 8, at Wilcox. A number of men opposed to this consolidation have been active for several days and a petition containing the required number of signatures calling for an election was secured.

It will take two-thirds majority of all of the voters in the district to dissolve this consolidation. It is not thought the proposition will carry.

The Wilcox consolidated district has twice defeated the school levy to maintain the schools in that district the coming year. In cae the district is not dissolved, the friends of the schools will call another election to vote for a school levy.

The districts in the consolidation are Ireland, Mt. Vernon, Guthrie, Griffith, Wilcox, Shell Grove and Knabb.

The vote on consolidation at the election held February 4 was 56 for to 54 against.

JOHNSON WINS FIGHT FROM MINNESOTA DISTRICT.

Chicago, June 2.—On the first roll call of the Republican National Committee, Senator Johnson won over General Wood by a vote of thirty-six to twelve. EARLY REFUND TO STATE INCOME TAX PAYERS PROBABLE

Attorney-General to Try to Find Some Legal Way Without Legislative Act.

Jefferson City, June 2.—Hope for an early refund to income taxpayers throughout the state of the sums paid by them in excess of legal requirement, under an incorrect interpretation of the amended state income tax law, was held out today by Attorney-General McAllister. He said he would try to find some legal authorization for the county collectors and the St. Louis city collector to make the refunds before they settle with the State Treasurer, June 15. If the money goes into the State Treasury, it can come out only by act of the Legislature.

John T. Waddill, tax expert in the State Auditor's office, also expressed the belief that the amount of the refund would be increased, if any taxpayer were to insist on the exemptions of the old law, applying to the first seven months and one week of the year 1919.

The Supreme Court Monday held that the assessors have erred in computing the tax for 1919 on the new basis of 1½ per cent of taxable income, and that this rate did not go into effect until August 7, last, hence that the tax before Aug. 7 should be at the old rate, ½ of 1 per cent.

Since the old rate was in force up to Aug. 7, it would appear that the old exemptions were also in force then. The old exemption was $3000 for single men and $4,000 for married men. The amendment reduced this to $1,000 and $2,000, and the assessors computed the year's tax on the latter basis. Waddill thinks that if any taxpayer were to hold out for the old exemptions as applying to his income before Aug. 7, the courts would uphold him.

The first estimate on the effect of the decision was that it would reduce the state's receipts from the income tax, from $4,612,000 to about $2,625,000. With the old exemptions for the first part of the year, the reduction in the total would be much greater.

Food— the Problem of the Hour

THE need for food has the world in its grip. To produce more food we must depend upon gasoline power on the farm to multiply the efficiency of the man-power available.

The following interesting comparison of man-power vs. machine-power, required per acre is illuminating:

Crop (1 acre)	Man-Hours By Hand	Man-Hours By Machine
Barley	64	4.25
Corn	39	7.70
Cotton	168	79
Hay	21	8.45
Oats	66	4.25
Potatoes	109	38
Rice	62	17
Rye	63	4.25
Wheat	61	4.25

The United States has changed from an agricultural into a semi-industrial nation. Never again will it see the day when 97 percent of its population dwells on farms. Yet the fact remains that the United States must feed itself, and the only way this can be done is through intensive soil cultivation, made possible by automotive machinery.

On the farms of the Middle West the gasoline tractor, truck, and automobile are multiplying the productiveness of man-power, and are doing their part in furnishing an adequate supply of food-stuffs.

Throughout this great section the Standard Oil Company (Indiana) has developed a system of distribution which insures the farmer an adequate supply of gasoline and lubricating oils. This system is based upon huge storage depots, fed from three large modern refineries.

Anticipation of possible difficulties is but one of the many burdens the Standard Oil Company (Indiana) assumes in order that consumers of the Middle West may have their wants supplied.

HAVE PLATFORMS WOMEN APPROVE

NEW "LADY" COMMISSIONER SAYS BRAIN HAS NO SEX.

WILL VOTE FOR ISSUES

Declares Women are Not Content Merely to Vote, But Will Aspire to Office.

Washington, June 1.—It tries the patience of Mrs. Helen H. Gardener, the first woman to be appointed to the United State Civil Service Commission, when some one bursts out with a warning that men are being feminized by woman's new activities in business and politics.

"Rubbish, all this talk about the men becoming soft and feminine," she said. "They are becoming decent, that's all.

"And all that's happening to woman is that her brain is functioning normally. In the days when she was regarded merely as a ballroom ornament or a kitchen essential it was flabby from disuse.

"Woman's brain has grown with her waist. Today she is infinitely more capable of rearing children than her eighteen-inch-waisted sister of the past."

The new "lady" Civil Service Commissioner is a vice-president of the National Women's Suffrage Association and one of the leaders in the movement to have sex discriminations of every kind removed. The thousands of women who apply each year for positions in government departments may be assured that she will be "on the job" to guard their interests. She is a writer by profession.

There's nothing aggressive about this little, white haired person whom the President has honored with the highest office awarded a woman during his administration. She is thoroughly feminine, dresses charmingly and she looks at least twenty years younger than her 62 years, despite the whiteness of her hair.

She is famous for her tact. In the days when the women were fighting for the passage of the suffrage amendment, she was known as the "diplomatic corps" of the National Women's Suffrage Association, acting as the suffragists' "ambassador" to the White House. And according to the suffragists, her influence more than any other factor brought the President round to their cause. She is now active in the League of Women Voters serving in the office of counsellor.

Discussing politics, Mrs. Gardener advised Presidential candidates who are consulting the ouija board for information about the woman vote to get platforms that will appeal to the women.

"The women are going to vote for issues rather than the man," she said. "Politicians are the only one who need fear their entrance into politics.

"They will not be content merely to vote. They're going to aspire to political office. And why shouldn't they? They are capable as men to run the government. There's no sex in brain."

"An optimist is a fellow who is still carrying an opener on his key-ring."

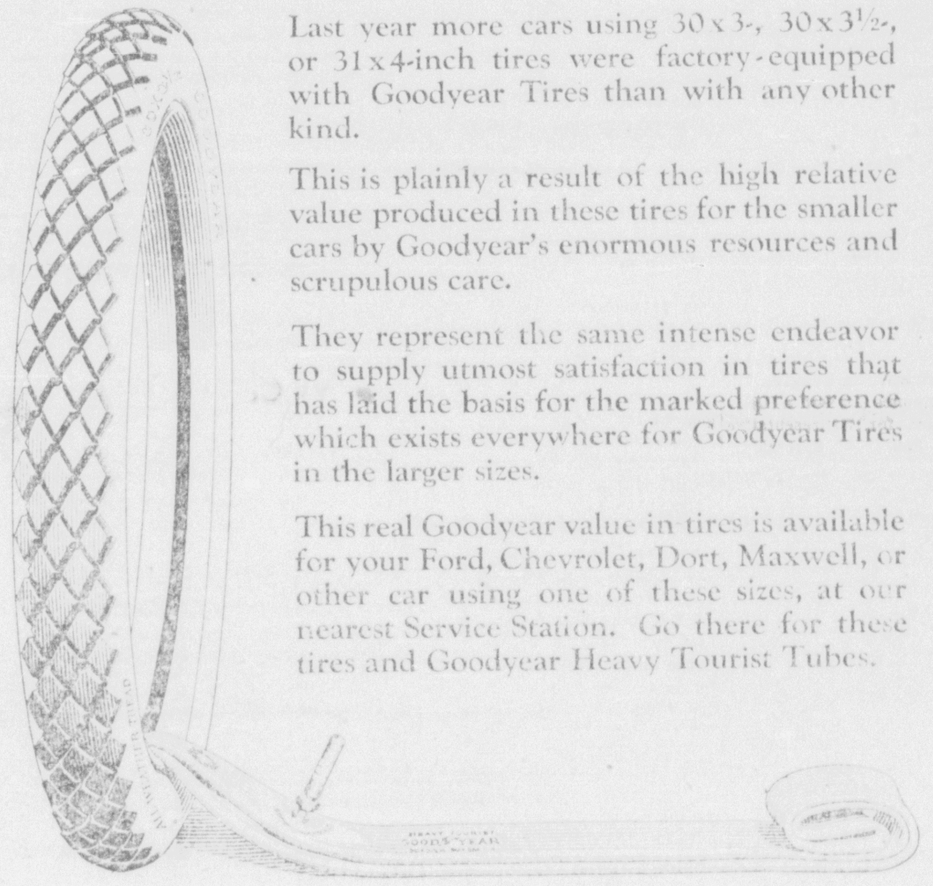
Why a Majority of the Smaller Cars Come on Goodyear Tires



Last year more cars using 30x3-, 30x3½-, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread $21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in waterproof bag* $4.50

CALIFORNIANS TO MAN U. S. BIGGEST SEA FIGHTER

Native Sons Being Recruited for the Crew of the Battleship California Now Being Built.

San Francisco, June 1.—California U. S. S. California, the most powerful fighting craft in Uncle Sam's Navy, when she is placed in commission at Mare Island in December, Captain C. W. Cole, Navy Recruiting Inspector in San Francisco, announced recently.

From commanding officer to the deck force and "black gang"—all will be natives of the state whose name will be borne on the waters of the Pacific by the craft which will become the flagship of the Pacific fleet.

"Made in California and manned by Californians," is the motto coined by Captain Cole.

The manning of vessels by officers and men, natives of the state whose name the vessel bears, is the work of Captain Cole and has received the endorsement of the Navy Department.

"The novelty of manning the U. S. S. California with California men," said Captain Cole, "will attract unusual attention to the magnificent vessel in all parts of the world to which she may cruise, and the California crew can be depended upon to uphold the traditions of this glorious state in making the U. S. S. California the most efficient of fighting ships.

Captain Cole has sent to the Mayor of every town and hamlet in the state a letter urging him to assist the navy department in recruiting "native sons" for the vessel.

The Navy Department will begin accepting recruits for the California in September. Each will be put through an intensive course of training at either Mare Island or Goat Island and they will be placed on board.

Approximately 1,200 men and officers will be required to complete the vessel's complement.

GROW SQUARE TREES TO IMPROVE QUALITY OF WOOD.

Cambridge, Eng., June 1.—Why not grow trees square?

The Cambridge Forestry Association, School of Forestry, Cambridge, following a lecture by Alfred J. Winslip, is "inclined to stake its reputation that this can be done." Thus, according to the association's "Archives," there will be "no more slabs, no waney planks, no more horrid sums to convert frustra of cones into cubic feet."

"It is as easy as falling off a log, indeed the time may come when such mishaps will be almost unknown," added the report.

The method, it is explained is practised by gardeners, who slit the bark to cause fruit trees to make wood. Further, when the bark is bruised without being removed, or even slit, a growth of a somewhat different kind takes place. This is the cause of warts. The wood in both cases is of greatly superior quality to that of the parent tree."

What Are You Going to Do About Your Catarrh?

Improper Treatment Leads to a Serious Stage.

Because you have doubtless been fairly comfortable through the mild summer months, and free from the soreness and irritation of the membranes, do not make the mistake of thinking that you are rid of your Catarrh. For if you suffered with this disease last winter, it will again be with you in all its severity unless you have eliminated entirely from the blood the germs which cause the disease.

Are you going to further temporize with a disease that leads to such a serious condition? Don't you know that you can use gallons upon gallons of local treatment without the slightest permanent benefit? Just give the matter a little careful thought, and you will realize that it is but a waste of time and money, besides seriously jeopardizing your health, to continue a method of treatment that has proven of so little value in making any real progress toward genuine benefit.

First of all find out just what causes your Catarrh. If it was merely a local irritation and inflammation of the delicate linings of the nose, throat and air passages, then you might reasonably expect to be cured by the use of local remedies. But have you ever known of one single person to be freed from the slavery of Catarrh by any kind of local treatment?

Why? Simply because they have overlooked the cause of these symptoms, and hence the treatment has been misdirected. Remove the cause of the clogged up accumulations that choke up your air passages, and they will naturally disappear for good. But no matter how many local applications you use to temporarily clear them away, they promptly re-appear and will continue to do so until their cause is removed.

But if you will take a treatment that goes right down to the very source of the disease and attacks it at its starting point, then you are on the right track, and can expect results. S. S. S., the fine old fifty-year old blood remedy is an antidote to the millions of tiny Catarrh germs with which your blood is infested. Don't waste further time by continuing a treatment that can make no progress toward permanent relief, but begin to take S. S. S. today, and you will receive the same benefit that others have.

S. S. S. is sold by all drug stores. Write us for free medical advice about your own case. Address Chief Medical Adviser, 17 Swift Laboratory, Atlanta, Ga.

AGED NEBRASKA MAN DIES AT 126 YEARS

THOMAS MORRIS ,COBBLER, LIVED IN THREE CENTURIES.

NEVER ATTENDED SCHOOL

Was Never Married and Never Had a Serious Illness—One Diversion Was Fishing.

Lincoln, Nebr., June 1. — Thomas Morris, who recently died at Westerville, Custer county, was Nebraska's oldest citizen, and was believed to be one of the world's oldest men. At the time of his death he claimed the distinction of having lived 126 years.

Morris has been a user of tobacco since his teens and was not averse to taking a nip of liquor if one were handy. He set at defiance also all rules for longevity by taking tea or coffee at all of his meals, and before retiring at night was accustomed to taking a quart of tea or coffee to his bedroom, which he drank during the night.

Morris never had a serious illness, but once suffered sunstroke. One of his modest boasts was that in 1883 a tapeworm, forty-five feet long was removed from him.

The old man retained both his hearing and his eyesight until close to the end. He never wore glasses until a few years ago, when a friend loaned him a pair, which he thereafter used for close work. The hearing of one ear was destroyed by scalding several years ago, but the other gave good service.

Morris had two other claims to fame. He never was married and he never attended school a day in his life. He was apprenticed to the butcher's trade when a boy, but after working as a butcher eight of ten years he took up cobbling. This was largely due to the fact that he had a club foot. Until a few years ago he made his living by repairing shoes. Five years ago he quit altogether. For several years he walked a mile and a half each day to a creek, where he spent the day fishing. This was his one diversion.

Morris was born January 15, 1794, at Belew, Montgomeryshire, Wales. His ancestors were Welch. His father was Thomas Morris, agricultural laborer, and died when the lad was three years old. He emigrated to America when seventy-seven years of age. He was a confirmed woman-hater, according to his biographers. He was engaged to marry a Welch girl, but she died a short time before the wedding day. Morris's mother lived to be eighty-four. He had one brother, who died nearly sixty years ago.

In 1871 Morris emigrated to America, arriving in Chicago the Sunday following the great fire. He has lived in Illinois, Missouri and Nebraska, settling in Custer County in 1886. Morris lived in three centuries. As he was born in Wales, no authentic record of his birth is preserved in this country, but inquiry in Custer county revealed that the statement as to his age is generally believed and some claim his age to be even greater than he has stated.

Morris was one year old when the famous trial of Warren Hastings closed and eleven years old when Nelson won Trafalgar. He lived in the period of the Napoleonic wars and attained his majority six months before Waterloo. He was seven years old when Ireland and England were united and has seen the reigns of George III., George IV., William IV., Victoria, Edward VII. and the present king. He was thirty-eight years old when the reform bill was signed and twenty-five years old when James Watt died. He was sixty-four years old when the first Atlantic cable was laid, sixty-seven when Fort Sumpter surrendered, and more than threescore and ten when Lincoln was assassinated.

Profits Helped Build Our Business

Do you think it's right to save money?

Swift & Company's business has been built up partly by selling capital stock for cash and partly by thrifty saving, putting some of our earnings each year back into the business to increase facilities for production.

That is what most all of us seek to do—save part of our earnings for future usefulness.

It is the way American industries have been built up. It means the least drain on the financial resources of the country.

For the past twenty-four years Swift & Company has made an average profit from all sources of 11.3 per cent on investment (capital and surplus), and 2.3 cents on each dollar of sales—a fraction of a cent per pound. Out of this we have paid dividends and saved something to help us keep pace with a growing country.

CHAMPION MILK COW GIVES 31,149 POUNDS ANNUALLY

Pure Bred Holstien has Made World's Record in Production. Is Now Eight Years Old

Essondale, B. C., June 1.—When a cow produces more than 31,000 pounds of milk in a year she is entitled to a big name. Theat is perhaps, why the world champion developed here by the Colony Farm is named Zarilda Clothilde 3d Dekol, No. 14887. She is a pure-bred Holstein.

Through the world's record is held by Tilly Alcartra Zarilda's production of 33,153.6 pounds of milk was under strictly official test, so that under such conditions this royal female bovine quadruped is hailed as world's champion of champions.

Zarilda's average production for the past three years is 31,149 pounds of milk, and her production ever since she was two years old has been so phenomenal as to make the average cow's production an apology for its existence.

Now eight years old Zarilda will spend the remainder of her days peacefully. One of her grandchildren has already broken a record as a two year old by producing in one week sixty-four pounds more than did the regal Zarilda at that age.

Nodaway County Farmers Making Big Money

in the Lower Rio Grande Valley of South Texas

PAST nine months experience with irrigation in the land of sunshine where moisture is regulated by the farmer over his telephone, and where every day is a planting, growing and harvest day, has convinced the King Brothers (formerly of Conception) that a winter crop alone can bring returns as great and greater than the cost of the land.

Weslaco, Texas, May 26, 1920.

To Our Good Friends Back in Missouri:

When we bought forty acres of irrigated land in the Lower Rio Grande Valley of South Texas from the W. E. Stewart Land Co. in August last year, through F. W. White of Maryville Mo., we were told that this land would pay for itself in one year if we went to work on it and we know now that such is a fact—we know that one winter crop of cabbage and onions alone will more than pay for the land even if you pay as high as $400 per acre for it.

We moved to this Valley from Conception in September last and for the benefit of those of our friends who want to know how we are making it we want to say that we are now satisfied that our move was a good one in every particular. When we left Missouri many of our friends predicted that we would be broke and back home in three months. Well we are still here and not even bent. So don't feel sorry for us folks—we are sorry for you if you can't move to the Valley.

We have now had nine months of experience farming in this wonderful valley—farming big money crops while you have been snow bound feeding up what you raised last summer and fighting with blizzards. We have the very best and most pleasant climate to be found. We have the best and largest irrigation system in the country and our water is sure and dependable at all times. We get our rain just when we want it, where we want it and as much as we want—and get it by telephone. Back in Missouri we couldn't even get central. We have all of the dependable farm help we want at $1.00 to $1.75 per day—and grant them such priviledges as boarding themselves. There are no negros in this valley. The mexican takes the negro's place as a laborer—and right here we want to say that the Mexican is a fine fellow, intelligent and will do what he is told to do, and he is there when you want him.

We planted 23 acres of cabbage which yield from eight to twelve tons per acre. Cabbage sold this season at from $25.00 to $110.00 per ton f. o. b. cars here. Our average was about $40.00 per ton. We have about ten acres of onions which will yield 200 crates per acre Onions are selling this season at $2.00 to $4.00 per crate f. o. b. car. The normal cost of growing cabbage is about $40.00 per acre. The cost of growing onions will run about $150.00 per acre. You can easily figure the profits on these crops. We had other crops such as head lettuce, carrots and beets which did well and brought good returns during the past winter. We have now several acres of grape fruit, lemons and orange trees set out and we are planning to build a good house and other permanent improvements this summer. We now have corn where other crops were in the winter months. Nine acres of cane hay, nine acres of shrock Kaffir and twenty acres of corn in roasting ear. We have a good car and truck and other equipment. We are making our farm pay its way and pay ours.

In concluding this letter let us tell you that this is the best and most healthful climate to be found in America and that more dollars are taken off this land each year from one acre than anywhere else in the United States, and with more real pleasure and satisfaction. This land at $300.00 to $500.00 per acre is the cheapest farm land in the world, we firmly believe. We know many men who have made more money here in the farming game accidently than they ever did intentionally up north. It is not all play, but if we take care of our place it will take care of us and then some more.

We have no land for sale but let us say that if any of you are coming to this valley to buy land, buy it under the big dependable Mercedes Irrigation system where second lift lands and good altitude exists.

Yours truly,

Frowin and Gregory King.

MOVE TO THROW MISSOURI TO KNOX FOR PRESIDENT

Sentiment in Favor of Pennsylvania Senator Appears With Arrival of C. D. Morris, St. Joseph.

Chicago, June 2.—Indications that the cards in the Missouri political deck at the Republican national convention are being stacked to throw the Missouri delegation to Senator Knox if it becomes apparent that Gov. Lowden cannot win the nomination for President on an early ballot were evident in the preconvention manipulation in Chicago yesterday and today.

While the Missouri leaders, who accepted more than $38,000 from Lowden and expended an undisclosed amount, in all probability will deliver a goodly majority of the delegation for the Illinois Governor on the first few ballots, there has appeared a very decided movement among them for Knox as the second choice. And there is still more than a week for this to change to make him the first choice.

What strength in the delegation they could control for Knox is problematical for the reason that none of the Missouri delegates are in Chicago, and while some of them can undoubtedly be led at will by the Hadley-Morse combine, it is equally certain that not all of them can.

The first indication of the Knox sentiment appeared with the arrival in Chicago yesterday of Charles D. Morris, editor of the St. Joseph Gazette and former chairman of the Republican State Committee of Missouri. Morris did not declared himself personally for Knox, but he did a great deal of Knox talking among delegates and party leaders. He said there was a very decided sentiment in Northwest Missouri for Knox for President and Senator Johnson for vice-president.

COMPARISON INVITED BY DEMOCRATIC LEADERS

Proud of Party's Record, as Contrasted With Failure of Republican Congress.

Washington, D. C.—Democratic leaders in Congress occasionally make reference to constructive legislation enacted by Congress when in the control of Democrats. The record is written, and is easy of comparison with the record of failure of the present Republican Congress.

Representative Rouse, of Kentucky, a Democrat, recently cited some of the acts which the Democratic Congress wrote between 1912 and 1918. Here are some of them:

Direct election of United States Senators; publicity for campaign contributions; Sherwood pension act; eight hour day; Children's Bureau; extension of parcel post system; creation of Department of Labor establishment of rural credits system; enactment of Federal Reserve law; passage of income tax act; vocational education bill; Lever agricultural extension act; Clayton anti-trust law; establishment of Federal Trade Commission; cotton futures act; seaman's law; good roads legislation; espionage act; Webb export trade act; food control laws; act permitting coordination of executive bureaus for the better conduct of the war.

This is not a complete list, but is sufficient for purposes of comparison with the record of the present Republican Congress.

WANTING IMMEDIATE INCREASE OF 18 CENTS AN HOUR.

Chicago, June 2.—Representatives of the national railroad workers today informed the railway labor board the only immediate and partial award of increase of at least 18 cents an hour to all railroad employees pending settlement of demands will meet the increasingly critical situation to prevent the complete collapse of transportation in the United States.

Pro-British Demonstration.

Washington, June 2.—Pro-Irish sympathizers staged a demonstration in front of the treasury building today. Miss Helen O'Brien of Boston burned the British flag. The demonstrators disappeared before the police arrived.

Baruch Calls Representative Mason.

Washington, June 2.—Bernard Baruch today addressed a letter to Representative Mason of Illinois demanding to submit immediately to Congress the Attorney General evidence in support of the statement that Mason made on the floor of the House to the effect that Baruch was the closest man to the President of the United States and stole fifty million in copper alone.

POU EXPOSES CONSPIRACY.

"These contemptible attacks upon President Wilson, before and after the Versailles conference, were made for one purpose only, to wit, to promote the prospect of Republican success in the coming elections. * * *

"His messages to Congress were really messages to the whole world. The influence for good of those messages was felt and acknowledged by men of all nations. They filled the American soldier, who in truth won the war, with enthusiasm, but they did more than this—the words of this great man so influenced the German soldier that he refused to fight. * *

"Against this man * * * the whole scheme was in effect a conspiracy, because this is the only theory that will explain and square with the course pursued by certain Republican leaders through the long months during which the treaty was pending. * * * The effort to foil and defeat and humiliate this great man had the support of every hyphenated, false American and every German sympathizer in this country to the last man."—From speech of Representative Edward W. Pou in House of Representatives replying to attacks on President Wilson.

POLITICAL NOTES.

The Senate Republican majority passed the separate peace resolution and thus left only the President to save the country from the "everlasting dishonor" Senator Lodge said a separate peace would bring upon the country. Such an act is quite in keeping with Chairman Hays' "we are more interested in the stomachs of our own people than the hearts of the world."

It was a fine sense of consideration that prompted Senator Knox to agree to elimination from the "dishonorable" peace resolution of the clause requesting the President to negotiate another peace with Germany. Doubtless the Senator who said the treaty the President negotiated was "too severe on Germany" felt that the President might not be trusted to negotiate a "soft peace."

From peace with victory on Armistice Day, November 11, 1918, to peace with "dishonor" in the American Senate on May 15, 1920, is a far cry, and a cry that only selfish, time-serving politicians who are out to catch the hyphenated vote can bear.

If Hiram can help it, there won't be many "niggers in the woodpile" of delegates at Chicago. The quadrennial fight over delegates from the "black belt" is always an interesting preliminary to the main bout on the G. O. P. National convention floor.

How to head Hiram and wallop Wood without alienating their followers is the problem that keeps the G. O. P. "Old Guard" bosses lying awake.

Not even Senator Lodge can galvanize a separate peace from an "act of dishonor" into respectability.

To Republican Senators, the Constitution is what a peace treaty was to Germany—a mere "scrap of paper."

Mrs. J. F. Montgomery went to St. Joseph this morning to be at the bedside of her son, W. J. Montgomery, who is very ill at the Ensworth hospital.
